PROFESSIONAL SUMMARY

Full-Stack Developer with 1.8+ years of experience in React, Angular, Node.js, and databases like MongoDB and PostgreSQL. Skilled in API development, UI optimization, and using AI tools to accelerate and enhance web application delivery.

EXPERIENCE

HOGARTH STUDIOS (WPP)

DEC'23 - PRESENT

DEVELOPER

- Developed custom enhancements and optimized UI/UX in Veeva CRM and salesforce using HTML, CSS, JavaScript and jQuery, boosting functionality and improving development efficiency by 20%.
- Implemented smart eDetailing logic using specialty and persona-based flows, eliminating multiple presentations and reducing setup time by ~2 hours per flow.
- Collaborated with the automation team to build tools that maximized productivity and minimized manual errors.
- Gained hands-on experience with salesforce and Veeva CRM setup, streamlining onboarding and automation.

PROJECTS

OpsInsight Dashboard | Angular, Node.js, PostgreSQL

- Built a responsive dashboard for visualizing KPIs and performance metrics.
- Integrated dynamic search, filter, and sort features for easier data access.
- Streamlined backend APIs for fast, scalable performance.

Asset Performance Platform | React, Node.js, MongoDB

- Developed a platform to monitor asset performance across campaigns.
- Enabled filtering and search to surface top-performing content.
- Added preview popups for efficient asset review and usability.

INTERN

OCT'23 - NOV'23

- Supported development of Veeva CRM presentation flows using HTML, CSS, JavaScript and basic jQuery.
- Contribution to code reviews and QA testing, helping resolve bugs and validate features early.
- Created channel-specific presentations to showcase features, aiding onboarding and internal training for CRM users.

CERTIFICATION

- SEO Foundations
- Customer Experience (CX) Foundations
- User Experience (UX) for Non-Designers
- Compliance and Regulations for Generative AI
